Course Code: 0103230301

Date: 12/11/2025

Maximum Marks: 60

Day: Wednesday

Time: 10:00 - 12:30

NOTE : DO NOT WRITE ANYTHING ON THE QUESTION PAPER

## PART II

Marks: 40

### Instructions

- All questions are compulsory and each question carries 10 marks
- 

Q1A. Veer and Ananya were married for four years. Over time, Veer repeatedly pressured Ananya to transfer large sums from her personal account to his business, threatened to disclose private family matters, and verbally abused her. One evening, during a dispute over a refused transfer, Veer deliberately locked Ananya in a room and tampered with the gas stove, causing an explosion that fatally injured her. Investigations reveal prior threats indicating that Veer would harm Ananya if she resisted his financial demands. Analyze this situation under BNS to determine whether Veer's actions constitute murder, culpable homicide, or a form of dowry/financial abuse-related death, considering the role of intention, knowledge, and prior abuse, and discuss the evidentiary challenges in proving the degree of liability. (CO3)

OR

Q1B. Aniket, frustrated over a property dispute, corners his neighbor's teenage daughter near her home and forces her into his car, holding her in a locked room for several hours. During the confinement, he shoves her against furniture, causing visible bruises and a minor fracture. A relative who attempts to rescue her is threatened with a weapon. Analyze Aniket's conduct under BNS, considering the distinctions between hurt and grievous hurt, wrongful restraint and wrongful confinement, assault and criminal force, and kidnapping and abduction. In your answer, critically assess how factors such as severity of injuries, offender's intention, age of the victim, and lack of consent affect classification, and discuss the evidentiary and judicial challenges in distinguishing overlapping offences in such scenarios. (CO4)

Q2A. Analyze the situation with reasons under BNS and IPC. (CO1)

- a. Ravi notices an unattended wallet on a table in a café and quietly takes it without the owner's knowledge or consent
- b. A businessman receives a call from a stranger threatening to leak private business information unless he pays ₹5 lakh.
- c. A motorcyclist grabs a woman's handbag while riding past her on the street and speeds away.
- d. Seema is walking home when a man suddenly pushes her and snatches her purse by force.
- e. Five men enter a jewelry shop, threaten the staff with knives, and forcibly take gold and cash.

OR

---

Q2B. Analyze the situation with reasons under BNS and IPC

(CO2)

- a. A group of 20 citizens organizes a march to demand better public transport services. They carry banners and chant slogans but do not block roads or threaten anyone.
- b. During a protest, a municipal police, 15 people gather with sticks and stones, planning to intimidate the authorities. Police attempt to disperse them.
- c. A demonstration against a new tax policy turns violent. Protesters break shop windows, assault police officers, and damage public property.
- d. A faction plans to seize control of a local police station, attack government offices, and replace officials with their own group. They stock weapons and recruit outsiders to help.
- e. Before executing a planned attack on a military installation, the conspirators are intercepted by intelligence agencies.

Q3A. During Durga Puja, Sameer deliberately throws paint on a pandal idol and damages festival decorations, while recording videos mocking the rituals and posting them online. His actions provoke some onlookers to vandalize nearby property and assault participants, causing injuries and damage. Analyze Sameer's conduct under BNS, considering how intention, knowledge of likely consequences, and direct versus indirect involvement influence liability, and discuss the judicial challenge of balancing freedom of expression with protecting religious sentiments during major festivals.

(CO5)

OR

Q3B. During a college party, Ananya is harassed by a senior who attempts to force physical intimacy. She resists, and her friends intervene, physically restraining the harasser until authorities arrive. The accused claims that Ananya and her friends overreacted and assaulted him. Analyze this situation under BNS Sections 25–28 regarding consent, focusing on how explicit refusal, the role of third-party intervention, and self-defense affect liability. Critically examine the challenges courts face in assessing consent, proportionality of force, and societal biases in such cases.

(CO3)

Q4A. Write short notes:

(CO1)

- a) *Salus populi suprema lex esto*
- b) *Actus reus nisi mens sit reum*

OR

Q4B. Write short notes:

(CO5)

- a) *Bona fide non patitur injuriam*
- b) Wrongful restraint v. Wrongful Confinement

Course: Business Statistics

Course Code: 0103240304

Date: 19/11/2025

Day: Wednesday

Maximum Marks: 45

Time: 10:00 - 11:30

NOTE : DO NOT WRITE ANYTHING ON THE QUESTION PAPER

**PART II**

**Marks: 25**

**Instructions**

- All questions are compulsory and First and Second question carries 10 marks and Third carries 5 marks

Q1A. Discuss the role and significance of Business Statistics in managerial decision-making. How do sampling techniques and statistical inference aid in solving business problems? (CO1)

OR

Q1B. From the given data:

(CO1)

Marks in Mathematics	25	28	35	32	31	36	29	38	34	32
Marks in Statistics	43	46	49	41	36	32	31	30	33	39

- Obtain the two Regression Equations.
- Find out the Coefficient of Correlation between marks in Mathematics and Statistics.
- Find out the most likely marks in statistics when the marks in mathematics are 30.

Q2A. Case Analysis

On April 20, 1999, two students, Eric Harris and Dylan Klebold, carried out a violent attack at Columbine High School, resulting in the deaths of 13 individuals. To understand the factors that contributed to such violent behavior, a psychologist decided to gather perspectives from students at the school.

A group of ten students volunteered to meet and discuss the events of that day. The psychologist attended the meeting, asked questions, and recorded their thoughts. Based on these interviews, the psychologist concluded that a primary reason for the violence was the peer dynamics at the school, which created groups of social outcasts.

**Questions**

- Identify the population of interest in this study.
- Which type of sampling method best describes that used by the psychologist?
- Discuss limitations of this sampling method used by the psychologist and explain how it might have affected the findings.
- Suggest specific steps the psychologist could take to obtain a more representative sample.

(CO3)

OR

Q2B. What is Probability? Explain the three Approaches of Probability with suitable examples. (CO2)

Q3A. What is Hypothesis Testing? Distinguish between Null Hypothesis ( $H_0$ ) and Alternative Hypothesis ( $H_1$ ) with suitable examples. (CO4)

OR

Q3B. The annual salaries of a group of employees are given in the following table: (CO1)

Salaries (in Rs. 000)	45	50	55	60	65	70	75	80
Number of persons	3	5	8	7	9	7	4	7

Calculate the Standard Deviation and Variance of the salaries.
